Keep your motor running right with a fresh plug. The standard CR8E is a good plug and will work for a long time. A Dual Electrode spark plug will last longer than a single electrode plug because the wear is shared between the electrode. The 790cc Big Bore Kit includes a custom made, forged 9.5:1 piston with rings, wrist pin and circlips. A custom made multi-layer steel head gasket, OEM metal base gasket, tensioner gasket, and cam bolt lock plate and a ProCycle specific big bore cylinder sleeve.
