This practical resource presents an introduction to the global construction industry, reviews the basics of construction projects and examines the common risks inherent in construction projects. The International Construction Contract has become one of the international models of international contracts used most frequently since in recent years numerous construction projects and infrastructures have been made by Western companies (from Germany, France, Spain) in emerging countries. Lukas Klee, JD, LL.M., Ph.D., MBA, is an international construction law expert, adjudicator and currently head of the legal department at Metrostav a.s., a large construction company based in central Europe. For over a decade Lukas has dealt with international construction contracts (FIDIC) on a daily basis and has participated in large construction projects in the Czech Republic and ...
